We would like to update you, concerning our consideration of those facilities whose status was "future closure." The Department is requiring that these facilities be accepted certified closed by our Department by the end of 1990 or face 1991 TSD fees.

Furthermore, the responsibility for closure has been shifted to our section, telephone number (518-457-6858). Please feel free to call Mr. Gary Belcher, of my staff, if you have any questions.

Dear Mr. Bayramzadeh:

We received the revised closure/post closure plan for the storage facility at General Electric Company's Electronics Park, Syracuse, New York, EPA I.D. Number NYD059385120.

This closure plan appears to have all the necessary documents to meet the requirements of an acceptable closure plan (40 CFR §265.112 and §265.142).

I am requesting that the State review the enclosed closure plan and provide written comments to me by September 5, 1984.

If there are any questions concerning this matter, please feel free to contact me at 212/264-1913.

Sincerely yours,
